

SPA SOLAGE HOOKS UP WITH CELEBRITY FAVORITE KATE SOMERVILLE

CALISTOGA, CALIFORNIA – Spa Solage, located at Solage Calistoga Resort, opening June 2007, has collaborated with Hollywood’s most in-demand skincare expert, Kate Somerville, to bring Kate’s results-driven, multi-dimensional strategy for achieving healthy skin to the hottest resort in Napa Valley, California.

The full-service 20,000 square-foot Spa Solage, which includes both indoor and outdoor space, will have two treatment rooms dedicated to offering Kate Somerville treatments.

Skincare consultant to celebrities including Jessica Alba, Debra Messing and Paris Hilton, Kate has pioneered the field of paramedical esthetics and helped lay the foundation for the medi-spa industry.

“We recognize Kate Somerville as a visionary in the skincare industry,” said Tracy Lee, Vice President of Spa Development, Auberge Resorts. “We are delighted to collaborate with Kate to offer Spa Solage guests a fresh and effective approach to overall skin wellness.”

Spa Solage will offer Kate’s signature treatments, including:

Kate Somerville Signature Facial

This result-driven facial treatment is the introduction to a lifetime of younger-looking skin and is customized to skin type. Specifically designed to heal, brighten and clarify, this facial begins with Kate’s signature exfoliating treatment, a gentle, yet effective micro-peel that utilizes papaya and pineapple enzymes to clear skin of debris. Afterwards, placed under steam, extractions are performed to further release impurities. Next, the appropriate Kate Somerville ‘Dermal Boosters’ are applied to the skin for custom results. Each proprietary ‘Dermal Booster’ was formulated to penetrate the skin’s surface and deliver essential nutrients for increased health and cellular renewal. A calming mask is massaged into skin and the Total Vitamin Antioxidant Complex is applied. Signature Kate Somerville products, such as Deep Tissue Repair, are finally applied.

DermalQuench Treatment

The ultimate hydration therapy, Oxygen, Vitamins and Hyaluronic serum combine under hyperbaric pressure to deliver unparalleled hydration and age-defying results. This treatment utilizes healing powers of oxygen and the restorative qualities of antioxidants to restore vitality to the

complexion. Calming and nurturing, DermalQuench instantly results in healthier, younger – more radiant skin. It's an ideal treatment before a special event or simply after a day spent in the ocean and under the sun. The celebrity red-carpet treatment of choice, DermalQuench delivers an incredible glow. Customized with Kate Somerville's signature 'Dermal Boosters,' DermalQuench leaves any complexion calmer, clearer and healthier than before!

DermaLucent Phototherapy

Developed by a medical-based research and development company in the UK for Kate Somerville, DermaLucent delivers a natural method of light-only skin rejuvenation. 100% natural, non-thermal and non-invasive, this light modality has been tried and tested in the medical community for years. Proven to restore collagen and elastin, even skin tone and improve texture, volume and elasticity over time, the DermaLucent is on the cutting edge of skin health and cosmetic innovation. Used in conjunction with Kate Somerville 'Dermal Boosters' to customize the service – these photoceuticals serve to address a variety of skin conditions, while the light is at work.

Spa Solage will offer a contemporary alternative to the typical serene spa experience. Guests will be invited to step out of their comfort zone and indulge in Spa Solage's signature MudSlide, a series of mud treatments and soaks in spring-fed pools. For those a little less adventurous, there will also be a spa menu of massages and body treatments. To complete the pamper and prettify process, the traditional spa also offers Magic Tan spray tanning, waxing and nail services at its manicure and pedicure studio.
